

Project title: Didacta advance - professional and technical knowledge to innovative solutions

Grant beneficiary: Didacta advance d.o.o.

Brief description of the project: The project proposal "Didacta advance - professional and technical knowledge to innovative solutions" is aimed at transferring professional and technical knowledge needed for the manufacture and testing of mobile assemblies (robots) from a scientific research institution (FER) company Didacta advance d.o.o. for the purpose of developing teaching (didactic) resources for educational institutions. The implementation of the proposed project will result in increased business competitiveness, growth in operating revenues and the addition of new functionalities to the product. Finally, the implementation of the project will have a positive impact on the development of the information society in Croatia.

Cilj i očekivani rezultati projekta:

The transfer of professional and technical knowledge by the scientific research institution (FER) will increase the agility of the company Didacta advance d.o.o. in terms of a faster and easier response to increasingly complex requests and needs of clients from educational institutions.

Total project value: 125.000,00 HRK

Total eligible costs: 100.000,00 HRK

Non-refundable funds: 75.000,00 HRK

Project implementation period: 8.5.2020. - 6.8.2020.
